Estill Voice Training for Choirs!

Kate, an Estill Certified Master Teacher, has been using her knowledge of Jo Estill's research in the choral context for nearly 20 years.

Kate's *VoxSynergy* choir was runner-up in the 2008 Channel 7's Battle of the Choirs.

When people ask how her choirs have such a strong vibrant sound, she says she owes it all to Estill.

But she tells all her singers whether choristers or private voice students, that her quick fixes are merely dot points.

Dot points which Jenny, an Estill Certified Course Instructor, joins together when Kate's singers enrol in Estill courses and learn how to improve their vocal technique and vocal performance.

Crash-Hot Choristers will bring these two experts together again, integrating their skills for the immediate benefit of choral singers.

Are you in a choir as a chorister or director?

Want to learn more
about how to sing well and
understand how your voice works?

Find out how to control your voice for
high, low, loud or soft singing;

Learn what changes to make when
the conductor tells you you're flat/
sharp, unsupported, dull;

Understand why you become vocally
fatigued in singing or speaking.

***This workshop is designed for
choristers (experienced or
otherwise) & choral directors who
wish to expand their vocal
knowledge in the choral context.***

One stop skill shopping!
